Hey Melissa:

I added it to his favorites yesterday.

Can you please add this account for Raj Sharma as well he is an OSC that will be going to this site next week.

Thank you.

Good Morning Virginia,

There are currently three TA's for the chemical leak so far. Can you please build the following site account in the **Melissa Linden, Dennis Matlock and Dominic Ventura's** PPL favorites. Also, can you let them know you set it up so they know to charge it. Let me know if you have any questions. thanks.lw
